

GENERAL STATEMENT OF POLICY ON HEALTH & SAFETY

Westfield Group have adopted from its very inception, a culture of safety in the work place and the elimination of risk to others. Our Health and Safety policy defines a highly developed Occupational Health and Safety Management System which has been established to enable Westfield Group to better control risks to our clients and the public, whilst assisting in the maintenance of performance. The system allows us to monitor and continually improve our procedures, ensuring that all our works are conducted to the exacting standards now required by the different governing authorities of the hazardous waste industry.

The progression Health and Safety issues and updates are continual within our working environment and we are fully supportive of feedback from our clients, site teams and staff. We operate an internal and external auditing system which underpins the continual improvement process.
